

Chargeback occurs after a cardholder initiates a merchant dispute with their issuing bank, the issuing bank will then charge back the transaction being disputed to www.noblesseswiss.com and the cardholder's account is credited. www.noblesseswiss.com will make every effort to avoid chargebacks by providing documentation to the issuing bank that the customer did in fact receive the item he ordered.

It's our mission to resolve the dispute as quickly and painlessly as possible, but sometimes the process can be lengthy. Please be patient. It typically takes 30 days for us to dispute a chargeback, and it may take buyer's credit card company up to 75 days to come to a final decision and resolve a chargeback.
